Holden, 1688.

Table of the Terms with their Returns

<p>Hilary Term begins Janua- ry 23, and ends February 13, and hath 4 Returns, viz.</p>	<p>{ Ocrab. Hilar. Jan. 20 Quind. Hilar. Jan. 27 Craſt. Purif. Febr. 3 Ocrab. Purif. Febr. 9</p>
<p>Eaſter Term begins May 2. ends May 28, and hath 5 Returns, viz.</p>	<p>{ Quind. Paſch. Apr. 30 Tres. Paſch. May 7 Menſ. Paſch. May 14 Quind. Paſch. May 21 Craſt. Aſcen. May 28</p>
<p>Trinity Term begins June 15, ends July 4, and hath 4 Returns, viz.</p>	<p>{ Craſt. Trin. June 11 Ocrab. Trin. June 18 Quind. Trin. June 25 Tres. Trin. July 2</p>
<p>Michaelmas Term begins October 23, ends November 1, and hath 6 Returns, viz.</p>	<p>{ Tres. Mich. Octob. 20 Menſ. Mich. Octob. 27 Craſt. Anim. Nov. 3 Craſt. Mart. Nov. 12 Ocrab. Mart. Nov. 19 Quind. Mart. Nov. 26</p>

Note, that the Exchequer openeth 8 days before any  
Term begins, except the Term of Trinity, in which it  
openeth but 4 days before.

Note also, that the bright Planet Venus, will be our  
Morning Star from the beginning of the year,  
the 24 day of August; and then making her Con-  
junction with the Sun, She becomes Occidental and  
our glorious Evening Star to the end of the year.

*The use of the Table in Example.*

King Henry 8 began his Reign in the year of Christ, 1509, April 22. He Reigned 37 years, 10 months, and 2 days. It is since he began his Reign 179 years compleat the 22 of April this year 1688. Now to know the time since the end of his Reign, before his name standing on the right hand, you shall there find 141 years since he died, Jan. 28. And so of the rest.

MARY HOLDEN:

THE

SECOND PART

Of the Woman's

ALMANACK.

FOR

The Year of our Lord God, 1688.

BEING

The Bissextile or Leap-year, and from the  
Creation of the World 5637 Years:

WHEREIN

Is contained the Description of the Four Quarters of  
the Year, the Eclipses, Astrological Tables of many  
useful things worth remembrance. Many necessary  
Rules in Gardening, &c.

By Mary Holden Student in Physf. and Astrol.

*Of Eclipses happening this Year.*

Our times will the Luminaries be Eclipsed this Year, twice the Sun, and twice the Moon.

The first will be of the Moon, on the 5th day of *April*, about the Clock in the Evening, in 26 degrees of *Libra*, it will be a great Eclipse, but not to be seen of us ; The Moon being under the Earth.

The second Eclipse is of the Sun, on *April* the 20th. at one the clock in the morning, in 11 Degrees of *Taurus*, invisible to us, but will be seen almost in the Meridian of our *Antipodis*.

The third will be an Eclipse of the Moon on the 29th day of *September*, about 10 of the clock in the morning ; it happens in 17 degrees of *Aries* the Ascendant of *England* ; invisible to us also.

The fourth will be an Eclipse of the Sun on the 14th. day of *October*, about seven of the clock in the morning, in two Degrees of *Scorpio*, the latter part of it may be seen in *England*, the Weather admits.

*Description of the Four Quarters of the Year, and first of Winter.*  
Sol in ♊ ≈ ♋:

The Winter Quarter begins when the Sun enters the first minute of ♊, that is *December* the 10th. 42 minutes after midnight at night, being *Tuesday*, making with us the shortest day and the longest night. The natural inclination of this Quarter cold and moist, but the colder and dryer the better for health. Now the younger sort and chollerick people enjoy their Health best, but the aged, and those of phlegmatick constitutions are generally most distempered. In *December* choller and phlegm do much increase, which makes people generally very heavy, dull and cold ; Therefore you may safely take this month to purge the Head of choller and phlegm, but they must be such as are prepared for the same purpose.

*Of the second Quarter called the Spring. Sol in ♋ & ♊.*

**T**HE Spring time being the most pleasantest and wholsome season of the four, taketh its beginning on Fryday the 10th of *March* near one of the Clock after Noon; At this time the Sun riseth at 6, and sets at 6, and maketh the night and day equal. This Spring Quarter continueth till the 11th of *June*. The nature of this Quarter is hot and moist; And of the Sanguine Complexion many are the distempers which proceed from putrified and corrupted Blood, these being most dangerous: Therefore let them that have any care of themselves take Physick and bleed; this being the fittest time to ease diseased Bodies; and to restore Health again to those in whom formerly it has been decayed.

*Of the third Quarter of the Year, called Summer. Sol in ♋ & ♊.*

**T**HIS Quarter takes its beginning at the time of the Suns first entering into *Cancer*, which is this Year on Sunday the 10th of *June*, at 48 minutes past noon, at which time he makes his greatest declination towards the North, and causeth the longest day and shortest night in the Year, and this Quarter continueth till the 12th of *September*. This quarter is naturally hot and dry, and the Phlegmatick Constitutions are best in Health, the Chollerick the contrary. This season is most favourable to old Age then to Youth, and therefore care ought to be taken accordingly: The infirmities of this season are many, as bleeding at the Nose, hoarseness, cough, shortness of Breath, Pleurisies, pain in the Head, Eyes, and Stomach, Feavers, and other strange Diseases.

*Of the fourth Quarter of the Year, called Autumn, or Harvest. Sol in ♋ & ♊.*

**T**HIS Quarter beginneth when the Sun toucheth the first minute of the Sign *Libra*, and produceth much the same effects as in *Aries*, *September* the 12th at 8 at night, that is, making the day and night equal, the Sun rising at 6, and setting at 6; Rising just East, and setting exactly West; This is the

second Spring, and a convenient time to take Physick and let blood, especially labourers, which have taken great pains in harvest, and have taken great heats and colds, which ingenereth many Distempers if neglected. This quarter is naturally cold and dry, and therefore persons of a sanguine complexion are for the most part best in Health, and the Melancholly most subject to Distempers.

*Monthly Observations for good Husbandry and good Housewifry.*

*Januaries Observations.*

Plough for Pease, fallow such Land as you intend shall rest the Year following; Water your barren Meadows, Pasture, and drain Arable ground, especially if you intend to sow Pease, Oats or Early the second time following. Also stub up all rough Grounds; Trim up your Garden Moulds: Set all kind of fruit-Trees, for it is best to set such Trees as will endure the cold; they will be forwarder in growth then those set in the Spring: Set Vines, and trim the old ones; nail up your Wall-fruit, and towards the end graft Pears, Cherries and Plums. The Weather calm, rear Calves, remove Bees, keep good Diet.

*Februaries Observations.*

Set Beans, Pease, and other Pulse in stiff ground, begin the honest, prepare your Garden, prune and trim your Fruit-trees from Morhs, Cankers, and superfluous Branches, plash hedges, lay your Quickset close, plant Roses, Gooseberry Trees, and any other Shrub-trees, and graft your tender Stocks; for-ear all Phlegmarick Meats.

*March's Observations.*

Look well to your Ewes, cut up underwood for Fewel, transplant all sorts of Summer Flowers, comfort them with good Earth, especially the *Crown Imperial*, *Narcissus*, *Tulips*, and *Hyacinth*; In your barren fruit-trees bore holes, and drive hard Wedges of Oak, and cover roots of trees close with fat Earth that are uncovered; Graft fruit trees, and sow Oats, Rye and Barley, slip Artichoaks, now advise with your Physician;

fician, for in this Month Physick and Bleeding is good to prevent further dangers, for now Blood increaseth, and gross Humours abound; let your Dyet be cold and temperate.

*Aprils Observations.*

Sowe your Hemp and Flax; sowe and set all sorts of Herbs, slip Lavender, Rosemary, Sage, Cyprus, Box, and such like shrubs, open your Hives, and give your Bees their liberty, and let them labour for their living; cut your Oak-Timber, the Bark is now best for the Tanners use; scower your Ditches, gather your Manure together in heaps, gather stones, repair Highways, set Oziers and Willows, and cast up all decayed fences: Physick is very seasonable still, as bleeding and purging to prevent causes of sickness, and for remedy in sickness.

*May's Observations.*

This Month commands Gentlewomen to set their Stills to work, as yet sow sweet Marjoram, painted Beans, Beasell, Time, Carnations, and Herbs that are tender, plant Stock-Gilliflowers in Beds in the full of the Moon, shade your Carnations and Gilliflowers in the heat of the day, fold your sheep, carry forth manure, and bring home sewel; weed Winter Corn, furnish your Dairy, let your Mares go to Horse, fat your dry Kine, and away with them; set your Bees at liberty, look for swarms in this month: In this month it is good to let blood and purge for such as have infirmities in the Head and Eyes, and for Aged People.

*June's Observations.*

Sow Lettice, Radishes, and such like Herbs at the full of the Moon, then they will not run to seed this month, and the next gather your Herbs to keep dry for the whole year; cut neither Hedges nor Trees these three months, gather Herbs with your fingers, a knife will cause them to dye; distil all sorts of Plants and Herbs whatsoever, cut your rank meadows, fetch home sewel, and carry forth manure, manure and lime to mend your land: Be sure to be chaste this month, whatever you are the rest of the year.

*July's*

*July's Observations.*

Attend your Hay-harvest, shear field sheep, gather your flowers and seeds at the full of the moon, dry your flowers in the shade, for the Sun too much exhaleth their vertue ; sun them a little before you lay them up, let the herbs you intend to preserve run to seed, cut off the stalk of your flowers, and cover the roots with new fat Earth : Sell your Lambs you intended for the Shambles ; beware of violent heats and sudden colds, which are the chiefest distempers of this month ; take heed to Physick, unless in extraordinary cases ; refrain *Venerie*.

*August's Observations.*

Follow diligently your Corn-Harvest, cut down your Wheat and Rye, mowe Barley and Oats, put off your fat Sheep and Cattle, gather your Plums, Apples and Pears, make your Summer Perry and Syder ; set your slips and Scyons of all sorts of Gilliflowers, and other Flowers ; transplant them that were set in the Spring, gather your seeds in the full of the moon, if dry weather, geld your Lambs, carry manure from your Dove-coats, put your swine to the early mast ; take no Physick, neither let blood in the Dog days but upon great occasion, if the Air be hot, otherwise, in necessity you may freely use it ; use not to sleep in the Afternoon, for it causeth Headach and Agues, refrain all excess in eating or drinking, drink that which is cooling.

*Septembers Observations.*

Cut your Beans, Pease, and all manner of pulse : On the Land you intend to sow Wheat and Rye, bestow the best manure ; gather your Winter-fruit, sow Winter herbs, transplant Physick herbs ; towards the end of the month, Earth up your Winter herbs and plants, remove and set all slips of Flowers, set Roses and Barbaries in the new of the Moon, sell your Wool, stocks of Bees, and other Commodities you intend to put off ; Thatch your Hive of Bees you intend to keep, and look that no Drones, Mice, or other Vermin be about them ; Thrash your Seed, Wheat and Rye. Use Physick moderately, shun the eating of sweet and rotten Fruit, avoid surfeiting.

*Octobers Observations.*

Finish your Wheat-feed, plash and lay your Hedges and Quick-fets, scour your Ditches and Ponds, transplant and remove all manner of Fruit-trees, lay bare the roots of your thriving trees, in Planting, set the same side of your Trees South and West which was so before, otherwise the North wind will kill them, make Winter Perry and Syder, spare your Pastures, and feed upon Corn-fields; draw Furrows to drain, and keep dry your new sown Corn; make Malt, rear all new fall'n Calves, all Foals that were foaled in the Spring, wean from the Mares. Sell your Sheep that you do not intend to Winter, and separate Lambs from the Ewes, that you intend to keep. Recreate your spirits by harmless sports, and take Physick by good advice, if need require it.

*Novembers Observations.*

Cut down your Timber for Ploughs, Carts, Naves, Axle-trees, Harrows, and other offices about Husbandry, or Housewifery; make the last return of Grass, feed Cattle, take your swine from the mast, and feed them for the slaughter; rear all Calves that fall now, break all Hemp and Flax that you intend to spend in the Winter season; remove Fruit-trees, and sow Wheat and Rye in hot soils, sow early Beans and Pease, set Crabtree-stocks to graft on in the old of the Moon, sow Parsnips and Carrots, uncover the roots of Apple-trees, and suffer them remain till *March*. Use Spices and Wine moderately, and if any Distemper afflict the Body, you may make use of Physick still, and Bleeding.

*Decembers Observations.*

Put your Sheep to the Pease-ricks, kill your small Porks and large Bacon, top Hedges, saw your Timber for building, and lay it to season; Plough your ground you intend to sow clean Beans upon: Cover your dainty Fruit-trees, drain your Corn-fields, and water your meadows; cover your best flowers with rotten Horse-litter. Now all sorts of Fowl are in season; keep thy self warm with a wholesome Dyer, and avoid all care that may trouble thy spirits, as a thing of dangerous consequence.

For as much as some do think that Astrology was invented by the Heathens, I shall endeavour to prove that it was from the beginning of the World, devised by the Sons of *Seth*; and for as much as they feared least their Art should perish before it came to the knowledge of Men, for they had heard their Grandfather *Adam* say, that all things should be destroyed by the universal Flood; they made two Pillars, one of Stone and the other of Brick, to the intent that if the Brick wasted with Water or Storms, yet the Stones should preserve their Letters whole and perfect, and in these Pillars they Graved all that concerned Astrology, or the observances of the Stars, and therefore it is credible that the *Egyptians* and *Chaldes* learned Astrology of the *Hebrews* and so consequently it spread abroad in other Nations; therefore I would not have any to despise the Art of Astrology, the Art and study is both laudable and excellent, and founded upon good principles of Scripture, as you may find from *Gen.* 1. to 14. and from 14. to 18. *Judges* 5. ver. 21. *Psalms* 3. ver. 6, 19. *Isaiah* 40. 22, 26. *Job* 38. 31, 32. look in the 7. chap. of the *Wisdom of Solomon* from the 17. ver. to the 21. and I hope it will satisfy you.

30	4	34	5	32	6	36	7	32	8	13	8	7

Seek the day on the side; and right against it in every month, you have the hour and minute of Sun-rising.

Look how many minutes the Sun rises after 5, 4, 5, 6, 7, 8.  
So many he sets before 9, 8, 7, 6, 5, 4.

A Table

# A Table of Annuities and Reversions.

What 1 pound to be paid any number of years hence, under 31, is worth in ready money.

What 1 *l.* Annuity to continue any time under 31 years is worth in ready money at 6 per cent.

What 1 pound will amount to at any time under 21 years, reckoning Interest upon Interest.

years	l.	s.	d.	q.	l.	s.	d.	q.	l.	s.	d.	q.
1	18	10	2	0	18	10	2	0	1	1	2	2
2	17	9	2	1	16	8	0	0	1	2	5	2
3	16	9	2	2	13	5	2	1	3	9	3	3
4	15	10	0	3	9	3	2	1	5	3	0	0
5	14	11	1	4	4	3	0	1	6	9	0	0
6	14	1	1	4	18	4	1	1	8	4	2	2
7	13	3	2	5	11	7	3	1	10	0	3	3
8	12	6	2	6	4	2	1	1	11	10	2	2
9	11	10	0	6	16	0	1	1	13	9	2	2
10	11	2	0	7	7	2	1	1	15	9	3	3
11	10	6	2	7	17	8	3	1	17	11	2	2
12	9	11	1	8	7	8	0	2	0	3	0	0
13	9	4	2	8	17	0	2	2	2	7	3	3
14	8	10	0	9	5	10	3	2	5	2	2	2
15	8	4	0	9	14	3	0	2	7	11	1	1
16	7	10	2	10	2	1	2	2	10	9	2	2
17	7	5	0	10	9	6	2	2	13	10	2	2
18	7	0	0	11	16	6	2	3	17	1	0	0
19	6	7	1	11	3	2	0	3	0	6	0	0
20	6	2	3	11	9	4	3	3	4	1	3	3
21	5	10	2	11	15	3	1	3	7	11	3	3
22	5	6	2	12	0	10	0					
23	5	2	3	12	6	0	3					
24	4	11	1	12	11	0	0					
25	4	7	2	12	15	8	0					
26	4	4	3	13	0	0	3					
27	4	1	3	13	4	2	2					
28	3	11	0	13	8	1	3					
29	3	9	1	13	11	9	2					
30	3	5	3	13	15	3	2					

By this Table you may readily find the increase of any other sum for such a number of years; for if 1 *l.* come to so much then such suppose 5 *l.* will come to 5 times as much, &c.

The

*The Use of the Tables.*

**T**He first Table shewing the decrease of one Pound yearly at 6 per cent may be used in buying Reversions, &c. As suppose a parcel of Land or House or the like, whose fee simple or real worth is 200 l. and it be Mortgaged or Leased out for 20 years, then what is the Reversion thereof after that 20 years worth in ready money? for Answer, I look against 20 years and find that the Reversion of one pound after 20 years is worth but 6 s. 2 d. 3 q. then if 1 l. be worth 6 s. 2 d. 3 d. 200 l. will be worth 200 times as much, which will be 62 l. 5 s. 10 d. for the value of the Reversion required.

The second Table may be used in buying of Leases, &c. as suppose I am to buy a Lease of 10 l. per annum, for 21 years, what ready money may I give at the rate of 6 l. per cent. per annum. for Answer, I look against 21 years and find that 1 l. annuity to continue 21 years is worth in ready money 11 l. 15 s. 3 d. 1 q. then I say, if 1 l. annuity for 21 years be worth 11 l. 15 s. 3 d. 1 q. then 10 l. annuity for the same time will be worth 10 times as much, which will be 117 l. 12 s. 8 d. 2 q. for the value of the Lease required.

The third Table may be used in putting out money for a certain time at 6 l. per cent. per ann. as suppose 20 l. be let out for 7 years what will it amount to in that time, reckoning Interest upon Interest? For Answer, I look against 7 years, and find that 1 l. will amount to in that time 1 l. 10 s. 0 d. 3 q. then I say 20 l. will amount to 20 times as much, which will be 30 l. 1 s. 3 d.

The use of the following Table is plain and easie, for suppose I am to find *Easter* this present year 1688. then having found the Golden Number 17, and Dominical Letter G at the bottom of the Table. I look under the Dominical Letter G at the top, and right against the Golden Number 17 at the left hand, and in the Common angle of meeting I find *April 15.* for *Easter* Day.

# H O L D E N. 1688.

*A Table shewing how to find Easter for ever  
by the help of the Golden Number  
and Dominical Letter.*

## ADVERTISEMENTS.

That I may do all the good I can, I Publish this to the  
 VVorld, that I have Excellent Remedies for all VVomen  
 troubled with Vapours, Rising of the *Mother*, Convulsion fits;  
 to the Canker in the *Mouth*, with so much ease, that the  
 Patient will hardly feel it; and all other Diseases incident to  
 their own Sex. *Mary Holden.*

*Salmon's* Select Physical and Chyrurgical Observations, con-  
 taining divers Remarkable Histories of Cures done by se-  
 veral famous Physitians, above 700 Eminent Cures.

2. Also *Salmon's* *Systema Medicinale*, a Compl. System of  
 Physick, containing the *Method* of Curing all the principal  
 Diseases happening to the Bodies of *Men*, VVomen, and Chil-  
 dren, Translated out of Latin into English, out of the most  
 learned *J. Dôleus*.

3. *Salmon's* Polygraphice, or the Art of Drawing, Engra-  
 ving, Etching, Limning, Painting, VVashing, Varnishing,  
 Gilding, Colouring, Dying, Beautifying, and Perfuming;  
 in Seven Books, exemplified in the Drawing VVomen, Land-  
 ships, Countries and Figures of various forms: To which al-  
 so is added many Chymical Secrets fit for publick or private  
 uses. All Three Printed for *Tho. Passinger* at the three *Bibles*  
*London-bridge.*
